Art Unit: 1642

1. Claims 26-30 are pending in the application and are currently under prosecution.
2. This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.8821 (a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reasons(s) set forth on the attached Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures.

Applicant is given ONE MONTH, or THIRTY DAYS, whichever is longer from the date of this letter within which to comply with the sequence rules, 37 CFR 1.821-1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821 (g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). In no case may an applicant extend the period for response beyond the SIX MONTH statutory period. Direct the response to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the response.

2. Upon review and consideration and in view of the newly added claims, restriction to one of the following inventions is required under 35 U.S.C. § 121:

Groups 1-5. Claims 26-27, 29, 30 are drawn to a recombinant protein encoded by SEQ ID NO:1, 3, 5, 7 or 9, each of which is a distinct invention classified in Class 530, subclass 350+. Claims 27, 29-30 will be examined as

Art Unit: 1642

the amino acid sequence is drawn to the protein encoded by the nucleic acid sequence elected.

Group 6-10. Claim 28 is drawn to a recombinant protein having at least 90% identity with SEQ ID NO:2, 4, 6, 8 or 10, further comprising the sequence set forth in SEQ ID NO:2, 4, 6, 8 or 10, each of which is a distinct invention, Classified in Class 530, subclass 350+. Applicant is required to identify a single Group for examination consisting of one of the sequences identified in Claim 27 as well as one of the sequences set forth in claim 28.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions 1-10 as disclosed are biologically and chemically distinct, unrelated in structure and function, made by and used in different methods and are therefore distinct inventions.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R.

§ 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

Art Unit: 1642

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. § 103, the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 C.F.R. § 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of potential 35 U.S.C. § 102(f) or (g) prior art under 35 U.S.C. § 103.

7. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan Ungar, PhD whose telephone number is (703) 305-2181. The examiner can normally be reached on Monday through Friday from 7:30am to 4pm.
